

YAKSHA CONSULTING

CAPABILITY STATEMENT

Structured cabling and hardware project support for office buildouts, technology refreshes and relocations.

VETERAN-OWNED / BRONX, NEW YORK / NYS CERTIFIED MBE

Yaksha Consulting LLC helps contractors, MSPs and business teams turn defined technology requirements into coordinated work packages, with clear responsibilities, delivery plans and completion checks.

PROJECT CAPABILITIES

01 Office network cabling

Cable installation, terminations, patching and labeling for defined office work areas. Agree on testing and documentation for a usable, organized handoff.

02 Hardware refresh planning

Equipment requirements, compatibility considerations and implementation dependencies. Build a practical plan to guide hardware decisions and deployment.

03 Workstation rollout support

Coordinated desk setups, asset tagging and peripheral connections across an agreed number of workstations, with consistent functionality checks.

04 Office relocation support

Plan IT disconnects and reconnects, desk cable organization and task ownership. Define sequencing and issue tracking to support a controlled handoff.

NYS MBE CERTIFICATION

VN-0261959

Awarded October 21, 2026

Expires October 21, 2031

APPROVED NAICS SCOPE

238210

Computer and network cable installation

541512

Computer hardware consulting services or consultants

Search Yaksha Consulting LLC in the NYS MWBE directory.

A CLEAR SCOPE. A PRACTICAL HANDOFF.

Share requirements. Include the site, quantities, task list and deadline. **Confirm the fit.** Agree on coverage, staffing, materials and responsibilities. **Define the handoff.** Establish completion checks, documentation and change handling.

Staffing, coverage and work windows are confirmed per project. Certified scope is listed separately above; MBE credit for deployment, relocation or other bundled tasks requires project-specific review by the contracting agency.
